The works are presented in magnificent oval frames in gilded and patinated wood, from the period, which perfectly highlight the richness of the colors and the timeless charm of these floral scenes. Each painting, painted on canvas, illustrates the art of still life in the manner of the 18th century, with an abundance of details, a mastery of light effects and a pronounced taste for decorative harmony. These two decorative works form a harmonious whole, ideal to enhance a classic interior, an elegant living room or a collection of old
