## Description

Egyptian Mummy Mask Polychromed Wood Late Dynastic Period circa700-300 BCAn ancient Egyptian carved wooden mummy mask with thesurface gessoed and painted in polychromy. Late Dynastic PariodCirca 700 - 300 BCDimensions: 29.8 x 17.5 x 6.5 cmHeight including mahogany stand: 47 cmProvenance: Aalderink Collection, Amsterdam, the Netherlands,circa 1950s/1960s (printed label on reverse); afterwards private collection,the Netherlands, until 2025Egypt has always been poorly provided with large trees fortimber. Consequently wood was a precious imported commodity. Cypress and cedarwere among the types of wood imported from Syria and Asia Minor. The mostprized indigenous wood was that of the Sycamore. The finest woods were
