

19th Century Universal Light Chamber By Berville (paris)

360 EUR

Signature : Jules Berville Paris

Period : 19th century

Condition : Parfait état

Material : Brass

Description

The universal light chamber is an optical instrument used to draw or trace an image using a triangular prism and lenses. The arm is adjustable using a rack and pinion system. The chamber and its original case are in very good condition, complete with its 12 convex or concave lenses. Shipping for this beautiful item is EUR14 via Colissimo registered mail with signature upon delivery, mainland France only. For other destinations, please contact me.
