Description

Oil on paper, Abstract composition, STMuse of Picasso but above all surrealist photographer and inspired painter, free, always at the avant-garde, sensitive and demanding, seeking purity. A complex abstract composition, structured on a rich polychromy weaving a sublime landscape capturing the essence of Provence. Three shades of blue, navy, Aegean, then on the horizon indigo. A green all in transparency which evokes an aromatic nature, the sweetness of the maquis, the thyme, the garrigue caressed with a touch of yellow like the anointing of the sun. The ochre of the ferric and arable land of the Mediterranean on the side of the Estérel, or of the Lubéron in Ménerbes which knew how to seduce Dora Maar and Nicolas de Staël. Like the incredible resonance of the earthly song of the sea. Stamp of
