Depth : 6cm

### Description

Griesbaum Singing Bird Box A rare and beautiful Griesbaum bird box, presented in a hand-painted case, combining elegance and craftsmanship. The mechanism is wound from below. By gently operating the lever at the front, the lid opens gracefully to reveal a charming little bird. This bird comes to life singing a sweet melody, while moving from side to side, flapping its wings and opening its beak in time with the song. At the end of the melody, the bird elegantly disappears into its secret compartment. A decorative and precious piece, a must-have for any collector of fine automata. <https://youtu.be/8wt5akeF8Bc>
