

Elegant French Chandelier From The 1950s

4 400 EUR

Period : 20th century

Condition : Restauré par notre atelier

Material : Metal

Width : 81

Height : 120

Description

This unusual chandelier was made in France in the 1950s. Please look at all our photos: its elegant and simple design is enhanced with lovely touches of detail. Hearts adorn the upper part in gilded bronze, while leaves decorate the main part. The lower part of the light fixture is beautifully finished with a glass sphere. The rest of the chandelier is decorated with the original icicles and glass beads. It has 8 arms and has been rewired. Superb!
