Description

Honfleur in celebration. hst (88 cm / 68 cm) the sailboats at the quay are sublimated by the French flags. The perception of the glued buildings plays wonderfully with light and contrast! The water then offers nuanced reflection. In the background the main building presents on the roof with the blue white red elements.. the whole is sublimated by the harmony of each color of the boats. The original frame and the format gives at home a beautiful incentive to travel.
