Description

Beautiful bronze sculpture with brown patina representing a coppersmith at work, this beautiful character is signed by the artist Etienne Adrien GAUDEZ (1845 - 1902) and struck by the founder Susses Frères Paris (see photos) The subject rests on a round base which rotates 360 degrees. The whole is in good condition, the patina is superb, I note two small brown marks on the base, perhaps an old restoration (without gravity). Total height: 51cm Diameter of the base: 21.5cm
