Description

Antique Charles X-era mahogany armchairs, French-made. These armchairs are of exceptional quality, as can be seen in the photo. Above the side leg is a carved palmette, typical of the Charles X style. The armchairs have no missing parts, and the armrests are twisted and thicker than usual, a sign of their exceptional quality. The two armchairs were restored in our workshop. The original padding was removed, the wooden parts restored and painted with a pad, and new padding and fabric upholstery were added.
