Description

These brass deer sculptures are characteristic of mid-20th century design, a period when stylized animal representations were particularly popular in interior design. Their slender, elegant form reflects the modernist aesthetic that favored clean lines and graceful silhouettes. These decorative pieces are highly sought after by mid-century design collectors and vintage decor enthusiasts. Their appeal lies in their ability to bring a touch of stylized nature and timeless elegance to contemporary interiors. Collectors particularly appreciate their characteristic golden patina and distinctive silhouette, which fits perfectly into modern or eclectic decors. Excellent condition.
