

## 4 Designer Chairs, Weaver's Workshop Furniture, With System.

700 EUR

Period : 20th century

Condition : Bon état

Material : Solid wood

### Description

Superb set of 4 craft chairs from a weaver's workshop, early last century, light plywood seat adjustable in inclination, steel tube leg adjustable in height, the legs have been revised by a specialist everything is ok, just a little rust on them, a touch of steel wool and wax and they are perfect. Height from 50 to 75 approximately. They remained several years in my shed so the patina needs to be redone. I am clearing my stocks at low prices!!
