Description

Vintage console table in brass and chromed metal, smoked glass tops. Italian edition from the 1970s, in the style of Romeo Rega or Willy Rizzo. An elegant and timeless piece, ideal for a designer interior or a modern Hollywood Regency style decoration. The structure combines the shine of chrome and the warmth of brass, while the two smoked glass tops add a sophisticated touch. This piece of furniture is distinguished by its sober and geometric lines, typical of Italian design of this period. Good general condition with some slight signs of use, without affecting the stability or aesthetics. The tops are intact, the structure solid. Dimensions: 125 × 40 × 71 cm
