

Fragment Of A Rota In Egyptian Porphyry, Roman Period

1 600 EUR

Period : Before 16th century

Condition : Bon état

Width : 17

Height : 13

Depth : 3

Description

Fragment of a Roman Rota from the Egyptian porphyry period from a pavement, 1st-3rd century AD. Found in Ostia around 1900 and since then in a private Belgian collection. For a similar one see the book *Porphyry* by Dario Del Bufalo or the pictures from that book that I included. I guarantee that this object is old.
