Description

Beautiful small gilt bronze clock, enhanced by four feet also in chiseled bronze, decorated in empire style, all mounted on a white marble terrace. The clock is in its period globe in perfect condition. Wire pendulum movement. The painted enamel dial has two winding systems, one for the chime, the other for the hours. The chiming of the hours is in working order, but the system needs to be serviced to function. Dimensions of the clock alone: 13.5cm wide and 21.5cm high. Sold with its key. Information and other photos on request.
