### Description

18th century walnut chest of drawers Elegant curved chest of drawers in solid walnut, opening with three drawers on the front. The piece of furniture features rich, eventful moldings as well as a pronounced curve on the sides and front, typical of 18th century productions. The front is enlivened by large handles and keyholes in chiseled and openwork bronze. The crosspieces are finely fretted, resting on arched feet ending in scrolls. The top, slightly overhanging, harmoniously follows the curved line of the front and sides. Very beautiful warm patina of the walnut. French work of the 18th century
