Depth : 95,5

Description

Pair of Easy Chairs - Warren Platner for Knoll, 1966 Rare pair of Easy Chairs by Warren Platner, produced by Knoll International from 1966. Iconic of American modernist design, this model is distinguished by its sculptural base of welded steel rods and its enveloping lounge line. Original orange fabric, in its original condition, typical of the 1970s. Iconic model, rarer and more sought-after than Platner dining room chairs. A great classic of 20th century design, present in the collections of the MoMA and the V&A Museum.
