### Description

Interesting serving tray in solid exotic wood carved with animals and plants. Work from Asia, from the end of the 19th century. Meeting of two boards carved in high relief, our tray has a decoration imitating bamboo on its entire perimeter. One of the two sides is composed of a decoration of a small rodent running in the bunches and vine shoots, the second side presents two birds evolving in a decoration of branches and blooming rose. The handles of the tray imitate a rooted and twisted branch. Overall in good condition, tiny little wear on the handles. Shipping costs mainland France 20 euros, other destinations contact us.
