Description

French Mid-Century Bronze Sofa Table in Palm Leave Design by Maison Charles, 1960s.This coffee table in fire gilded bronze shows a very fine frieze of palm leaves all around.its special feature is the double frieze, which makes it even more visually appealing.The decorative band forms the frame of the tabletop and the legs and is very finely crafted in its structure.Legs taper to a small volute, and the feet feature a dotted pattern.The marbled tabletop is made of blue-silver-gray mirror glass and is undamaged, with only signs of aging on the edges.The table is light-footed in appearance but heavy in construction. A valuable object that is a pleasure to behold.
