Description

A small chest of drawers that is truly out of the ordinary. Please note this is not a master's chest of drawers but really a child's or doll's chest of drawers. It is made of walnut and is built like an 18th century Louis XV chest of drawers, the drawers are mounted with dovetails and the dimensions are respected. The drawer bases and the back are in white wood stained walnut color.It opens with 4 drawers on the front with 4 locks working with the same key. The bronzes are original with falling handles decorated with butterfly wing lock entries. It rests on 4 feet with pads moving in the manner of a plinth on the three sides nicely worked. It is doubly curved on the front, the sides are straight. The top is made of a single walnut board with a beak profile. Drawers and locks work perfectly. No trace of
