Description

two tables feature a modern and elegant design, combining wood and stone. Each table has a square top made of dark stone (marble, pierre bleue de Belgique), with a rough finish on the edges. This creates a look that's both natural and refined. The structure, the base, is made of solid wood (oak) with a warm hue. It adopts a geometric "X" shape, providing both stability and a contemporary style. The overall style combines noble materials (stone and wood) in a minimalist and geometric design, ideal for modern, industrial, or even rustic chic decor. These tables can be used as side tables, bedside tables, or small coffee tables, and their design allows them to easily integrate into various interiors. This pair of tables can be paired with a large coffee table (pictured in my 1St Dibs business profile).
