### Description

This is a superb mid-century banker's lamp, made in France from steel. The lamp retains its original green paint and bakelite on/off switch on the side of the shade. We have had the lamp rewired for the UK with a twisted cable; we can adapt it for any destination. Please contact us for more information. Like all our lights, it uses a standard LED bulb, like you would use in a new lamp.

Traditional in design, please note that the shade is fixed and not adjustable. The height of the shade is 26 cm, the base measures 20 cm by 10 cm. The shade is 25.5 cm wide and 8 cm deep.
