At the time of the Persian Renaissance, Kashan was the center of carpet production of legendary splendor. Carpets with fine weaving, of a very rich composition, were knotted by the royal factory of Shah Abbas. They became the centerpieces of museums and private collections. The craft industry was interrupted in Kashan between the invasion of the Afghans (1722) and the end of the 19th century. The revival of Carpet production began with carpets distinguished by the superior quality of the wool giving an extremely velvety appearance. These examples are called Kashan Motashemi, named after the most famous master weaver of the late 19th century. The decorations are varied and offer meticulous craftsmanship: hunting scenes, subjects with figures inspired by Persian mythology, birds in a plant setting, trees of life. Thanks to the superior quality of the wool, their tight knotting, the beauty of their natural colors and their designs, the Kashan took their place among the best Persian carpets. I invite you to look at our Proantic gallery where we offer many semi-antique carpets and antique carpets; This carpet has been professionally and ecologically cleaned.
