Description

Superb sauce boat from Maison Haviland, Empress Eugenie Collection. The decoration of this collection was created by the designer Léonce Ribière for Empress Eugenie. Haviland interprets it in an eponymous dinner service of infinite delicacy. A crown of violets recalls the sovereign's taste for flowers and for the shades of blue, mauve and purple present in her toilets. The composition of the decoration embodies the Second Empire style, while the scrolling violet stems prefigure Art Nouveau. ? of the frame 19 cm. Condition near new, some micro scratches. Mark on the back.
