Description

This floor lamp, made in France in the 1950s, is fully adjustable - please see our photos. We also offer a similar lamp with a slightly more decorative base. You can find it on our website or you can also contact us for more information.

Simple in design, this light is made from brass with a weighted base. This ensures great strength, even with the arm fully extended, and also gives it an elegant aesthetic. Excellent quality and beautiful patina. The height of the light is 145 cm.

We had it remade for the UK with black twisted cable. However, it can be adapted for any destination. Please do not hesitate to contact us for more information. Photographed with a custom-made handmade shade, sold separately.
