Sulfide Millefiori Glass Bottle

450 EUR

Period : 20th century

Condition : Très bon état

Description

Elegant glass bottle with sulfide decoration which in this case is also called millefiori. This bulging bottle includes its original stopper, the similar decoration in the 2 parts simulating flowers hence the name millefiori. The capacity is minimal, it is above all a decorative object that is rarely seen in this form. Quality work in very good condition (slight chip on the base visible in the photos) very bright by its colors.
