Description

Bronze and Crystal Ceiling Lamp circa 1960, vintage four-light ceiling fixture, bulbs are within a circular crystal bowl. This 1960s crystal lamp features a gilded cast bronze crown at the top, decorated with raised raceme scrolls. From this band departs a cascade of crystals that form a soft garment of chains of faceted crystal octagons of sloping size that is connected in the center with a round metal ferrule and other pointed crystals, pendants, carved crystal prisms with the tip like spears. Superb is the effect of refraction, the light coming from inside the circular structure enhances the vivid brilliance of the crystals in this ceiling light from the second half of the 20th century. The original electrical system was not working and has been rewired, the ceiling light has four large Edison lamp holders (E27)
