"fish Sculpture" By Wam Grey

600 EUR

Signature : De Wam Grey

Period : 20th century

Condition : Parfait état

Material : Brass

Width : 33

Height : 55

Description

Sculpture by the artist De Wam Grey representing a seascape represented by 7 brass fish with flamboyant tails as if emerging from a shell. This work is part of a series on the theme of the sea. De Wam Grey enjoys combining mineral and metal in sculptures that are both naive and stylized. Its triangular-shaped base, approximately 15 cm on each side, made of brass, gives it good stability.
