### Description

18 ct Gold (750/1000) Ring set with an Emerald and Old Cut Diamonds This trilogy ring in 18-carat yellow gold and platinum is set with an emerald weighing 1.28 carat and two beautiful old-cut diamonds together weighing 0,96 carats. The ring is opulent, very well made and the trilogy rings have a resolutely haute joaillerie feel. We made this ring using diamonds loosened from an old jewel and a beautiful emerald whose deep, luminous green is magnificent. Note: emeralds are much more beautiful in real life than in photos!
