

Small Glass Paste Vase Signed By Vez

350 EUR

Period : 20th century

Condition : Très bon état

Material : Glass paste

Height : 10cm

Description

Charming small vase, in acid-etched multi-layered glass, with a lake landscape decoration: slender trees on the banks, mountains in the background and a twilight atmosphere rendered by shades of brown and purple on an amber background. The signature "de Vez" appears in reserve in the decoration. This mark is associated with the glassworks of André Delatte (1887-1953) in Nancy, which produced pieces in the spirit of Gallé and Daum. These creations were intended to make multi-layered glass accessible to a wider public, while retaining the artistic quality of the École de Nancy.
