various locations in Tuscany. In 1982, international contacts took shape: Barensen Gallery in Boca Raton (USA), the 1982 New York Art Expo, and Artmarks in Toronto in 1983. That same year, Enrico Crispolti invited him to participate in the traveling exhibition "Lands of Distant Lands" and, in 1984, in the Roman exhibition "Drawn Sculpture." Blending ceramic and bronze, Ronchi created sculptures, some of which were large, intended for public spaces. Among his most significant works in this field are those located in the park of Villa Ghironda in Zola Predosa, in the area in front of the CEFLA company in Imola, in the church of Santa Maria Maddalena in Verona, at the Sant'Anna Hospital in Ferrara, in the Cassa di Risparmio di Imola, in the church of San Giovanni Evangelista in Ascoli Piceno, and in Palazzo Vespignani in Imola.
