Length : 92 cm

Height : 98 cm (49+49cm)

Depth : 46cm

Description

JAPAN, 2nd part of 19th century Superb traditional Japanese TANSU chest (or cabinet) in 2 sections (KASANE) KIRI (PAULOWNIA) wood Complete and original hand forged iron fittings (hinges, locks and lock escutcheons, Gumbai handles, corner reinforcement, etc.) 4 main drawers and 2 small drawers hidden a security door. The ingenious assembly system allows the position of the 2 boxes to be alternated and secured (the handles are straightened and allow, in addition to easy transport, closing using rods fixing the 2 parts together). The wood is both light, for easy transport, and solid. Very nice daily use patina that I chose not to touch. The sides have a darker shade because they were previously varnished. Dimensions: 98 cm height (49 + 49 cm - the 2 parts can be positioned
