### Description

Stud earrings for pierced ears of beautiful volume, in 750/°° yellow gold (18 KT, owl hallmark) adorned with two pear-cut citrines, soberly set with claws, for a very refined look. The closure system consists of a rod and alpas systems, the most secure. These earrings can thus be worn in the desired direction, tip of the pear upwards or downwards. The citrines, lively and beautifully crystallized, are soft in color in natural light and extremely bright in artificial light.....these earrings are therefore suitable for all circumstances...their format and sobriety make them a very versatile jewel. Total weight of citrines estimated at approximately 6.25 carats  
Total gross weight: 3.22 g Condition: imperceptible micro-scratches on the gold parts, characteristic natural inclusions in the citrines
