Description

Imposing and exceptional chest of drawers with inlaid wooden top. This is a work from the first half of the 18th century, of Lyonnaise origin. Indeed, its generous inlaid decoration, the native wood species used (walnut, cherry and plum...), as well as the high quality of the materials and the manufacturing, confirm that it is indeed a work of a cabinetmaker from Lyon. It opens with 3 large drawers on the front, and the locks work perfectly. It is also worth noting its rich, superbly gilded bronze trim. This piece of furniture has been restored and revarnished by us. We are therefore offering for sale a rare piece of remarkable quality, in impeccable condition. Delivery throughout France.
