450 EUR

Period : 19th century

Condition : Très bon état

Material : Wallnut

Diameter : socle 37.5 cm

Height : 158,5 cm

Description

Corinthian column in walnut. A Corinthian capital rests on a piastre crown supported by a fluted shaft whose base is decorated with acanthus. The whole is supported by various turnings which themselves surmount a fluted base on a molded disc. Late 19th century. Height 158.5 cm, base diameter 37.5 cm. Beech base.
