Description

Subject: Jacqueline with a StamenSupport: phototypeDimensions: 30 x 40 cmCondition: good general condition (see photos)Period: 1962Using a technique used since 1943, Picasso had made cut-outs of heads and silhouettes. In 1962 with his friend the photographer André Villers, he mounted the cut-outs on different photographs, 30 in all, thus varying their effect and value. All the collotypes were published by Berggruen in the portfolio "Diurnes" printed in 1000 copies.
