# Organic And Slender Murano Vase By Salviati

200 EUR

Period : 20th century

Condition : Parfait état

Width : 29

Height : 46

## Description

The vase has a slender, organic shape. A fluid, well-proportioned overall silhouette. It has a smoky brown tint, with a translucent gradient effect. This finish gives an impression of depth. The glass appears to be sandblasted, giving a matte, soft texture to the eye and to the touch, different from traditional glossy glass. This accentuates the contemporary and refined side of the object. The small, round "Salviati" marking on the body of the vase is clearly visible, guaranteeing authenticity. It is discreet but legible, which is typical of the brand's collectibles.
