

Large Wooden Panel Irian Jaya Asmat Oceania

2 900 EUR

Period : 20th century

Condition : Etat d'usage

Description

I offer you this panel, this superb large Asmat carved board, with animal motifs, a snake, 2 spade heads and 2 characters facing each other at the top, on a background of scales. Height 120cm by 60cm wide approximately, probably intended for shamanic use of premonitory visions under psychotropic drugs, in hard wood not bark like some shields. Very decorative object of curiosity. Comes from the collection of Nina Wolmark, famous creator in the 80s of animated series (Rahan, Ulysse 31 ...).
