Description

Rare cup with monbretia decoration by Daum, after a plate drawn by Henri Bergé, head decorator of the crystal factory. Daum in its finest quality with this fine decoration, entirely acid-etched and finely enameled on top. This decoration on a white background with yellow touches stands out superbly. The base is pink and still gives a sparkling rendering. The colors are striking. Polylobed cup, signed with the coat of arms in the decoration, in superb condition, made between 1905 and 1910. Perfect condition, 15 cm in diameter. Small gem of art nouveau glassware, superb and rare colors.
