Description

Pretty and rare fish bowl by Amalric WALTER in Nancy. A very beautiful model for this bowl in real turquoise blue and green glass paste. A fish and its fry, surfacing on the surface of the water, swim in squadron. We can see wavelets caused by the eddies of the fish. The colors are really beautiful. This model is clearly referenced, see the last two photos of pieces with the model offered in the auction room. Note that an identical piece is offered in the auction room on May 16 (SEE LAST PHOTO), estimated at 3300-4300 euros, to which must be added 30% of room fees. Piece signed "AWalter Nancy" and "HBergé sc" because it is after a drawing by Henri Bergé, artistic director at Daum. Perfect condition, circa 1920, diameter of 15 cm Rare piece, with beautiful colors and very fine! To seize!
