Description

Hand-painted porcelain plate with neoclassical scene

Europe, late 19th century

Elegant, finely hand-painted white porcelain plate, decorated in the center with a refined mythological or allegorical scene depicting three figures in classical garb, embellished with a rich gilded frame featuring leafy and lattice motifs in pure gold.

The central scene, executed with great chromatic delicacy, reflects the pictorial style typical of late 19th-century European manufacturers, inspired by neoclassical and romantic tastes. The rim features light blue shades that harmoniously frame the main decoration. Period: late 19th century

Origin: Europe (probably Germany or France)
