Description

This armchair with armrests is designed by Richard Schultz and produced by Knoll International. It is part of the famous 1966 collection, a collection of outdoor furniture that the designer created in the 1960s at the request of Florence Knoll, who wanted a modernist and designer interpretation of outdoor furniture, particularly in the choice of materials. Here, cast aluminum, textile mesh and saddle-stitched leather straps. The design is very beautiful: tapered, light and well made. The armchair is sold as is: the mesh of the seat is damaged, some seams are undone, and some paint is missing on the structure (see photos). Dimensions: Seat height: 41 cm Backrest height: 75 cm Seat width: 59 cm Depth: 57 cm
