### Description

A 19th century Satanic Romantic dagger. This dagger is in excellent condition and has beautiful casting and gilding. The figure is quite unique and not one I have seen before, the dagger blade has some light play in it but this does not diminish the allure and beauty of this example. The blade is missing felt and also the blade can be unscrewed. The blade is double edged and still sharp. The scabbard has a little wood insert to avoid excessive play when sheathed. A rarely seen example or museum level. Length 30 CM
