Description

Very beautiful vase decorated with fruits and crystallizations by Joseph Mougin. Certainly one of the most beautiful models I have seen from this beautiful signature. Beautiful polychrome decoration (purple, green and orange) with a frieze of fruits on the upper part of the vase. We see grapes, oranges and plums. This decoration surrounds reserves of crystallizations of all beauty. Very characteristic technique of the Mougin brothers, the magicians of the great fire. The whole is enhanced with a floral frieze at the neck. Height 29.5 cm, perfect condition, nothing to complain about, circa 1920 Signed under the base Very beautiful art-deco, rare.
