Description

We present this elegant Italian antique mirror dating back to the early 19th century, during the Empire period. An extremely refined mirror. Made with a wooden frame finely decorated with gold leaf, using traditional techniques. The frame is not overly ornate, and its refined simplicity makes it perfect even for modern spaces where a distinctive antique piece is desired. Its size is also manageable, and you can choose to place it wherever you desire a mirror with antique and timeless charm. The gilding shows some signs of aging, so please examine the photos carefully. Keep in mind that signs of aging enhance the charm of an antique piece. Please note that the mirror is not contemporary with the frame, but in the antique style, it has some stains that mimic old mirrors (see all photos carefully).
