Description

This is a charming little antique console or side table, made in France in the mid-19th century, with a refined and functional design. The polished white marble top with soft grey veining gives the piece a touch of luxury and elegance. The fruitwood veneer base, with a warm patina and a smooth finish, has curved S-shaped legs, characteristic of the Empire style. An ideal console table for an entryway or hallway, but can also be used as a side table in a living room. The concealed drawer provides practical storage space; please take a look at our photos. The marble top is ideal for displaying decorative objects, lamps or even as a plant stand.
