### Description

Antique English-made desk, 1840 s. It is of exceptional quality and stands out for its ONE-PIECE TOP, 82 cm wide (one can imagine the age-old tree that was used). The piece has two drawers with original locks. It can be placed in the center of a room because the back is finished like the other parts. The desk has been restored in our workshop to restore its original beauty. It measures 126 cm x 82 cm, and is 78 cm high.
