### Description

Cracked earthenware sculpture representing a walking polar bear, Art Deco period and style. Very interesting piece in the purest Art Deco style from the Primavera workshops of the Printemps department store at the beginning of the century. Very typical sculpture in the refined style of Pompon bearing a signature in blue to identify. Note the very beautiful glaze and the very fine crackle of the whole giving a very chic and decorative side to the work. Possibility of sending in France and worldwide by secure and insured package with order tracking. Possibility of collecting the object on site at the Avalrich Montescot estate 66200 or on my stand every two months at the Montpellier Cipolat unpacking, merchant terrace.
