The ring is formed by gold wires that hold the basket and form an openwork loop at the base and on either side. Period: 20th century Main material: yellow gold, 750 thousandths, 18 carats. Total weight of the beryl: approximately 9.92 carats. Proportions: Height: approximately 16 mm, width: approximately 17 mm, thickness: approximately 9.5 mm, width of the ring at the base: approximately 2.4 mm. Net weight: approximately 7.3 g. Antique jewelry - Work from the 1960s. Our opinion: Very original, this retro ring features an unusual gem, yellow beryl, which here has a very light, slightly smoky yellow tint.
