

Black Stone Fireplace Surround, France, 19th Century

5 800 EUR

Period : 19th century

Condition : Bon état

Material : Stone

Width : 157.5

Height : 119

Depth : 44

Description

Magnificent and refined fireplace mantel, crafted from black stone and enhanced with refined inlays of Rouge Griotte, a richly veined dark red marble. The design is inspired by Renaissance motifs, with large scrolls and a central cartouche. Crafted from heavy, high-quality stone, this imposing architectural element has strong decorative appeal.
