Description

Large iridescent vase with applications by Jean-Claude NOVARO. Very beautiful colors for this vase with yellow, pink and blue pigments on which the glass artist has applied iridescent glass filaments. Not without recalling a peacock feather motif. Typical of the artist's production, this vase is perfect and luminous. 28 cm high, 18 cm wide. Signed and dated (1998). A beautiful example of this modern master glassmaker recognized by all, particularly bright colors. A beautiful signature.
